About Fietsersbond

Fietsersbond is the national bicycle advocacy group in the Netherlands.

In Amsterdam, Fietsersbond has more than 35 years experience in designing, advising and lobbying for cyclists. Through the years Fietsersbond has played an important role in the realisation of bicycle facilities and bike friendly traffic policy for the city.

And it still does: tackling the last difficult bottlenecks for cyclists, keeping the good facilities we have and raising awareness for new threats, such as the rising numbers of mopeds.

The bicycle excursions are staged by Fietsersbond's Projektburo. This organisation realizes projects for Fietsersbond that are outside the scope of the regular work of Fietsersbond. Such as signposting for cyclists and the creation of our famous bicycle maps.
